Employment

Diver/DMT
Legacy Offshore

Jan 2008-present
Broussard, LA

Operate as a commercial diver and dive medic; this includes all inspections, well work, salvage, scrapping and sub sea assemblies. Vast Experience with dive operations on DP vessels as well as TLPs, four points and jack ups. Worked for Chevron, BP, Shell, Stat Oil and most all major oil companies, I have also gone through all of their rigorous safety trainings. Responsible for all pre dive neurological exams and diving and non- diving related medical issues.

Diver/Tender/DMT
Superior Offshore

Feb 2007-Jan 2008
Lafayette, LA

Same duties as previously mentioned above as well as lead tender of crew, made sure equipment was hooked up, tested and properly cared for before and after dives. I rigged the equipment in preparation for dives as well as coordinate with supervisor regarding dives.

Plumber/Foreman
R&N Plumbing

1996-2002 and 2005-2007
Tallapoosa, Georgia

Supervise and coordinate activities of workers engaged in assembly, installation and repair of pipes, gas lines and fittings, inspect structures to determine weakening resulting from pipe installation, extensive pipe welding experience, study building plans to assess material and equipment needs as well as cost and sequence of installations, perform complex calculations for planning large jobs and prepare written work cost estimates, recommend measures to improve production methods and employee performance, install industrial gas lines for large corporations as well as fire protection systems.

Infantry Sgt. Team Leader
United States Army

2002-2005
Schofield Barracks, Hawaii

Operated and maintained weapon systems, evaluated terrain and maps in order to determine field Position for troops, managed a team of four soldiers and led them into combat in Afghanistan and performed monthly evaluations on each, examined equipment and weapons to detect malfunctions. Trained with combat medics and routinely experienced and performed medical duties in trauma situations on and off battlefield.
